EDUCATION

Bachelor of Technology (CSE)
Malla Reddy Institute Of Engineering And Technology
10/2020 - Present

PERSONAL PROJECTS

#1 - Inserting and formating text using macro VBA(Visual Basic Analysis)
- Recorded a macro to automate addition of headers and format the complete worksheet using a single button. Here multiple records can be formatted using a single button.

#2 - Create an interactive button to sort the data on its own.
- created an interactive dialogue box with button where the user just needs to enter a number associated with - what way the user wants their data to be sorted and this is done using macro VBA sort procedure.

#3 - Clean up and sort data in multiple worksheets using macro and VBA loops
- Cleaned up the data and sorted it accordingly on multiple worksheets using macro recorder to record the process for 1 worksheet and using VBA loops to run it on multiple sheets with single UI button.

#4 - Automate the SUM function for multiple sheets using single button
- Created the sum function in VBA (Visual Basic Analysis) and ran the Excel VBA procedure to sum the record and Looped the SUM() function over multiple worksheets.

#5 - Creating the final report using excel VBA loop
- created a VBA loop to clean up data, sort data, add headers, formatting the data and sum up the entire worksheet using VBA loops and adding logic to stop the function from running multiple times in 1 button.

#6 - working with Excel VBA User Forms
- interact with user - using drop down menu and navigating through different worksheets and adding worksheets using VBA user forms and buttons .automatic creating of final report with headers , sort and total sum of the report using VBA functions.

#7 - Importing data from text files
- Importing multiple text files and creating loop to read each file with automatic renaming and screen updating property and creating reusable code with VBA function.

CERTIFICATES

Microsoft Excel - Excel from Beginner to Advanced- Link Below
